## CAREER PROGRESSION

TELUS, [www.telus.com](http://www.telus.com)

100 Consilium Place, Scarborough, ON  
Junior Programming Analyst

June 2014 - Present

Worked on the development of VoLTE (Voice over LTE) network. Responsibilities included designing workflows and coding in java. Other tasks included testing and making sure the system was running as expected.

### Key Responsibilities:

- Designing workflow and coding in java over third party tool called Mediation Zone.
- Performed AT Testing and provided code fix for issues.

### Key Achievements:

- Instrumental in understanding the existing system and coding as a part of the project leading to implementation of workflows that pick up usage from networks, process them and forward them to concerned domains

Centennial College, [www.centennialcollege.ca](http://www.centennialcollege.ca)

941 Progress Avenue, Toronto ON  
Peer Tutor

Jan 2015 – Present  
(Previous: Jan 2014 - April 2014)

Facilitated and tutored at the Centennial College Learning Center for various software engineering technology and technician courses.

### Key Responsibilities:

- Provided one-on-one facilitation to Centennial College students for software engineering courses.
- Tutored courses including C#, .Net, Java, Android, Web Services, Oracle, UML Modeling etc.

# Divneet Singh Sethi, BCA

Programming Analyst

56 Pebblestone Circle  
Brampton, ON., L6X 4N2

Cell: 416-918-2906  
e-mail: [divneet91in@gmail.com](mailto:divneet91in@gmail.com)
